

**Listed below is our approved Contractor to act on behalf of Claiborne Electric to conduct Pre- & Post-Engineering Surveys for all Pole Attachment Permitting Purposes. This firm is also responsible for conducting attachment and safety audits for all pole attachments on our system.**

**\*Currently, Volt Power is handling our permitting, but if Volt Power is not able to handle a permit within the time lines set forth in the LPSC General Order dated Sept. 4, 2014, then Volt Power will notify you to make other arrangements.\***
