A. Permit Application

This Pole Attachment Application (Application) is submitted pursuant to the terms of that Joint Use/License Agreement by and between Licensee and Claiborne Electric (Claiborne) and is governed by the provisions of that Agreement.

Part I: Attachment of Equipment on Poles (Licensee to fill in blanks, date and e-sign):

Licensee desires to make _____ attachments on _____ Pole(s). The attached drawing(s) and specifications identify each Claiborne-owned pole on which Equipment is to be attached and describe the types and characteristics of the Equipment or other facilities to be attached to the Pole(s). If Licensee is replacing or modifying existing equipment in the route at the same time, please provide the number of poles _____ and include the description and specifications of those modifications in the attached documents.

Date: _____ **Authorized Representative:** _____

Please attach the route map(s), equipment specification sheet(s) and any other pertinent information that will assist Claiborne’s permitting agent to promptly review and evaluate this Application:

Make Ready Application Fees defined in the Licensee’s Joint Use/License Agreement are due and payable as a part of this Application. Failure to remit the appropriate Fees shall result in the Application’s immediate rejection without processing or review.

Part II: (Claiborne Electric Cooperative, Inc. or its Authorized Agent to fill in appropriate blank, date and sign):

Permit Issued This Date: _____ **Permit Denied This Date:** _____ (See Reason)

Reason(s): _____

Date: _____ **Authorized Representative:** _____

Construction must begin within 90 days from the date this Permit is issued. Otherwise this Permit shall be deemed null and void, and any prepaid fees will not be refunded. Post Construction Inspection must be scheduled within five (5) days of the completion of all attachment and equipment construction and/or installation.
